

Introducing the Next Generation of Outdoor WaterCop Flood Prevention Systems

DynaQuip's **NEW WaterCopPRO Integrated Outdoor System** adds valuable features to quickly detect and automatically stop common plumbing floods. Upgraded system capabilities offer improved user interface and flexible installation options. The WaterCopPRO Integrated Outdoor System is preferred for custom built or expansive homes, multi-family, condominium or commercial use where combinations of hardwired and wireless sensors communicate with an indoor Water Control Panel and hardwired actuator. WaterCopPRO Integrated provides the most complete plumbing leak protection while offering the most flexible installation options and third party monitoring/security integration.
